I vote a definite no to new road tax. We already have extreme traffic on our roads and this will just make it worse! I have been in San Francisco where I've had to pay a tax and as a visitor its frustrating waiting in line. I would even go out of my way, which cost me an hour of my commute, to avoid such tax. Plus I don't see any improvement on roads in the cities that are using this! I strongly oppose this road tax and so do a lot of my family, friends, and neighbors.
