Oregonians do not want new road taxes. ODOT needs to spend the money they already receive on the basic functions and less on the fluff that has blown up all the construction budgets. Quit holding us hostage by the threat of bad roads and unsafe conditions just to get your hand deeper into our pockets. If you would quit running businesses out of our state there would be more money for projects. If you think taxing us more is so great, try putting it to a state vote and see what the people have to say. When we don't have enough money for what we want we have to tighten our belts and figure out ways to be more efficient with what we have. When most of your projects are coming in way over budget someone should be getting fired. NO NEW TAXES ON OREGONIANS.
