Topic: LC 2

You are already killing everyday Oregonians with the highest payroll taxes. There are too many derelict, and outdated vehicles as it is, increasing the registration tax and payroll taxes is criminal. Manage ODOT better, get an audit done, and then ask for more money if you can't find where to cut it from or negotiate better deals for product. No new taxes! We're taxed enough. It's impossible to live in Oregon and I've been a resident my entire life. Stop pushing me out of my home!
