I am extremely opposed to this new tax on drivers!

I am a 71 year old senior, and a new tax such as this will greatly affect my ability to drive to shop for groceries and travel.

As you know, the price of food and goods are rising exponentially, IF you can find items you need, what with supply chain issues.

To add this new tax along with rising costs of everything will greatly affect seniors as well as the common family just trying to make ends meet!

I am a taxpayer and strongly oppose this tax
