To Whom it May Concern,

I am writing briefly today regarding my concern of yet another increase in taxes. Without fail, each year there is a new tax created or increased. Even if the tax is supposedly on the rich or a business, this cost continues to be based down to families such as ours. This has simply become unbearable. I have watched family after family leave for Idaho, Texas, Nevada and other states. We stay in contact with these families and are told about \$2.50 per gallon gas prices and greatly reduced grocery totals. We are a family of 7. Every dollar matters. Oregon has been our only home, but it has become unrecognizable. Soon, we may have no choice but to leave.
