Measure, Appointment or  
Topic: LC 2

No more taxes on users of Oregon roads. The gasoline taxes are too high and the EV drivers don't pay their fair share of road use taxes. Additional taxes on DMV paperwork are not justified. Concentrate on making ODOT more focused on our building and maintaining our highways. Delete all programs for non-paying users; such as bicycle lanes, pedestrian bridges, etc. Large trucks are the cause of most congestion; focus on controlling their use of Oregon highways.

We can't afford any more taxes!
