Committee: Joint Interim Committee On Transportation  
Funding

Measure, Appointment or  
Topic: LC 2

I am against the road tax. It will cause a worsening of the already bad traffic issues in this state. The tax will also be used to fund a bridge that will effect shipping commerce and transportation, which in turn will harm businessess in the state. The tax will also hurt trucking transportion wwhich is the life blood of business in the state. IF the businesses are hurt costs will go up. Many businesses will close and you will loose revenue. So a road tax will cost you more.
