NO NEW ROAD TAX!

These are tight times financially for many people. Us citizens have to learn how to work within the budgets we have available, we can't just make decisions to force our income sources to provide us with more money when our expenditures are greater than our income. Instead, we have to learn how to be creative, how to cut expenses, what things that seem "necessary" are really "nice to have" instead.

In my opinion we are already overtaxed in numerous ways. Our Oregon needs to figure out how to be more efficient with the dollars we have available and not place further burden on the families in our state.

Sincerely,

Stephen
