I am strongly opposed to the proposed gas tax and payroll tax. ODOT has been mismanaged for many years under the progressive socialist leadership of Governor Brown and Governor Kotek. The gas tax is a regressive tax and will be a major financial burden for all lower income Oregonians.

It is very telling that the Democratic Party and Governor Kotek selected this Friday, August 29th, to hold the special session, hoping that most Oregonians would be distracted by the upcoming Labor Day Weekend and be unaware of their nefarious tax and spend proposal to bail out ODOT.

The Oregon Democratic Party works every day to damage and destroy the lives of all hard working Oregonians.

Sincerely,

Michael Cowgill
