Please do not add any more "tax" burdens to Oregonians. As a private citizen I have to live with in my budget and so should the State.

You cannot keep adding more fees and taxes to the working people of Oregon!
Live within your Budget! As a person on a fixed income I have to and so should the State I live in.

Please work on a bipartisan solution, not just to decide to add more Tax Burden to the already heavy one you have created.

It is a process of give and take and the last 10 years have been Take, Take, Take more money from the citizens of the state.

Look at the Oregon tax rate compared to other states...any wonder that Washington and Idaho are growing? We already pay our fair share!

No! to any additional taxes!
