Topic: LC 2

I am a small business owner in Oregon since 2010; Oregon has become a VERY hard place to do business and we are seeing major companies such as Intel, Nike, Tektronix and many others reduce their labor force in Oregon. When are we going to learn that more taxes is not the solution! I would encourage you to reject the Road Tax and work on using the money tax payers have given you to do the job better. As a business owner I regularly look for waist...Oregon can do the same, be good stewards of our money!
