Topic: LC 2

Please do NOT add more taxes for Oregonians to pay! We are already paying a State Transit Tax out of our paychecks, gas taxes paid at the pump, plus fees and taxes from various avenues to support Oregon's transportation.

Instead I support more accountability for how our money is currently being spent and making sure that money goes to projects that improve the lives for more Oregonians, not just a few high priced special projects in the cities.

My income has NOT increased for more than a year and a half, but my property taxes, groceries, fuel, electricity, water and sewer have all increased.

Enough is enough! We average, hardworking Oregonians can't bear higher taxes!
