Topic: LC 2

Please don't add more taxes to an already over taxed citizenry! ODOT should be subject to more accountability and transparency. Out here in the "forgotten corner" of Oregon, they have spent millions of dollars on nonsense items, like the bulb-outs at town intersections while they claim that they can't fix the pot holes in the highways. Why not appoint an oversight committee to delve into ODOT's budget and figure out where the money is going that keeps them from maintaining the roads. I can drive to Idaho and buy gas much cheaper than it is in Oregon but I still have to pay the registration and transfer fees, etc. Please don't allow this boondoggle to proceed. Thank you.
