I support increased road taxes for ODOT. Our roads are a mess and need to be repaired and maintained. When any Republican in this country cries waste, fraud, or abuse, I assume they are lying and have a hidden agenda. I want safe roads in Oregon that are in good repair and don't mind paying a few cents more at the gas pump. There has to be a sensible way to make up for lost revenues due to electric/hybrid vehicles and I am grateful to those who have already purchased one. Air quality matters and I care deeply that we minimize our use of fossil fuels.
