Im writing today to express my displeasure in the "NEW-TAXES" being discussed.

We DO NOT need more taxes, what we need is more accountability in our government spending. You the government have taxed your constituents to death, businesses and the top tier are leaving in droves . There won't be anyone left to pay your taxes. We are senior citizens who have to live on a budget, why doesn't the State of Oregon have to do the same ? We literally can't afford anymore taxes, we are maxed out and this could very well put us over the edge or force us out of retirement, who's going to hire us in our 70's ?

Oregon needs more accountability before it needs more taxes. That's your answer to everything without consideration to what the ramifications are to your constituents!

**OREGON DOES NOT NEED ANYMORE TAXES !!!**
