Oregon already the dubious distinction as being among the highest taxes on fuel and payroll in the country. The proposal would overwhelmingly hurt low & middle income citizens. We certainly don't need any increases. Has anyone thought of perhaps cutting costs in non essential programs? How much of the shortfall is due to the democrats foolish and stubborn resistance to the legal enforcement of immigration law? (as in sanctuary state?) Article 6 in the US Constitution states that federal law "shall be the supreme law of the land; and the judges of every states shall be bound by thereby, any thing in the constitution or laws of any state to the contrary notwithstanding." Article 1 gives the federal government authority over immigration & naturalization. Federal law - 8 USC - sec 1324 &1325 is pretty convincing as to why "sanctuary" jurisdictions violate federal law - - - but - - - We have a joke out here in The Dalles - "you can always tell a democrat - - they are the people who ignore the truth and common sense because it disagrees with their desired outcomes."

With all respect that is due,
