Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

I am opposed to new taxes and fees to fund transportation. The department of transportation needs to find a way to work with the money it already receives. If a bill needs to be passed in order to reorganize the current organizational/funding structure then we should be working on that, rather than trying to collect more money. The cost of living in Oregon is already very high, and these proposed taxes and fees will make it even more difficult to live here.
