The tax paying Oregonians are at a breaking point. We can hardly afford our power and water bills. We have some of the highest fuel costs in the country. Our food pricing has increased, they are talking of ANOTHER power increase, when is it enough? We were supposed to get a kicker back, that money has essentially been stolen from us. How many of us tax payers could really use that money right now when things are tight and continue to get tighter? Now we want to add more payroll tax, more gas tax, title fees to go up, vehicle registration to go up, diesel tax (this effects way too many things to be taken seriously, right?), and changes to ODOT. Mismanagement is not for the tax payers to cover at their own expenses. Stop taxing us to the breaking point. We cannot handle more. Give us our money back and find another way to use the money you take. We are tired, and we are over it.
