

Submitter:	Michael Titus
On Behalf Of:	My family
Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

I stand apposed to any an all new taxes until the state implements some evaluation of government efficiency. As a retired senior citizen, working all my life in Oregon I can't afford this administration's push for more taxes. I can't understand how the legislature funds programs and never evaluates how effective they are or heaven forbid cancels funding. Normal productive people live within their means, the state should also.
