OPPOSED: Please NO New Road Tax, gas or payroll tax, find another way and hold government accountable. Don't make the people of Oregon pay more because leadership did not come to a solution in the 2025 Legislative Session. Oregon already has high enough gas prices due to taxes. Find a way to spread it across Oregonians and visitors to our State. People are financially struggling with high gas, property and income taxes amongst the high inflated economy. I see millions of dollars wasted in projects, misaligned priorities, and deals w/contractors that no one is being held accountable because they know how to play the game and CYA, put an end to it!
