Funding

Measure, Appointment or
Topic: LC 2

Oregon is rapidly becoming one of the most expensive states to live in, and our state and local governments keep doubling down on bad policy and fiscal irresponsibility. Stop this additional road and payroll tax. Stop using our general tax dollars to fund special, pet, and social justice programs and then turn around and add more taxes to pay for the general fund/day to day services our government is supposed to be providing. No more taxes, people already can't afford to live in this state.

Thank you for listening,

Brian Forehand
