Committee: Joint Interim Committee On Transportation  
Funding

Measure, Appointment or  
Topic: LC 2

Since current road and transportation taxes are not restricted to road and transportation projects, there is no need to increase road and transportation taxes.

Please use current road and transportation taxes exclusively for road and transportation projects.

Not to do so is disingenuous at best and dishonest at worst.

We are watching, especially low-income folks who can least afford the disingenuous tactics of the Oregon legislature.
