I am categorically opposed to any new "TRANSPORTAION" tax that just goes into another black hole. We are taxed way too much "FOR" transportation, that really doesn't better travel within the State at all. The VAST majority of PRODUCTIVE WAGE EARNING CITIZENS DO NOT WALK, BIKE OR USE PUBLIC TRANSPORTAION to get to work. We DRIVE to work. YET the lion share of our taxes go to projects that do not improve our commutes. Quit ROBBING US AND ODOT of the monies needed to support the TAX PAYERS of this great state!!
