Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

Oregon is a dying state. What is being done to protect it's working middle class people. Oregon is too expensive and the folks working can't afford to live here. Businesses are leaving. When working Oregonians leave and there's no money left, where will Oregon get its funding? When there are no people or businesses to tax or add another "FEE", where will Oregon look for relief. Oregonians oppose all new road tax and fees proposed by Governor Kotek. Work within a reasonable budget.
