NO new taxes as the cost of food, property taxes, fuel taxes and incomes taxes I am losing more income yearly and my income is fixed. When I live on a budget I need to balance out priorities and plan as all families need to. If I overspend there is no extra income to replace the overspending. I expect the leaders elected by the people who they represent to balance the budget and priorities just like families in Oregon due every month. With that being said no new taxes and balance the Oregon budget along with learning how to set goal and plans.
