OPPOSED

We have already been looking at other states to move to because we are being priced out of Oregon. We are a multiple generations deep Oregon family that have owned businesses and farmed. We don't want to leave but we can't afford to stay here. If you force more taxes on us, you will force our hand. And I imagine it will have a ripple effect with many more families. And then you'll really lose money. The republicans have offered a very doable solution and because of party lines you refuse to see it. We want Oregon to be amazing but it is circling the drain and you're about to pull the plug. Please save the middle class here in Oregon. Help keep families here. Put down your ego and LISTEN.
