Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

Mismanagement of Oregon is ramped. Adding a new gas tax again will restrict people traveling and gain no new revenue. I am retired and my wife owns two dance studios. She make very little revenue. About sixty percent of the citizens in Pendleton are on some type assistance. She loves teaching children to dance and exercise. She will have to raise her fees and three fifths will not be able to pay. You will put her out of business, I also expect more large business's will also leave. If you want more information contact me.
