Topic: LC 2

It used to be that I was able to work from home and only had to travel one day-a-week. This helped as I'm on a limited budget, I didn't have to put gas in my car very often, and didn't have a lot of vehicular expenses. Now I am having to commute to my office five days a week, 30 minutes each way.

This new road tax will not only add greatly to my fuel expense (higher gas taxes) but will also add significant cost to owning and maintaining my vehicle through higher vehicle registration costs.

With the higher prices we have to pay for food and housing, raising our taxes on our cars and our roads is just adding insult to injury.
