Topic: LC 2

Having lived in Oregon all my life, I seen this State go from living within your means to

total liberal spending, no accountability, taking no responsibility, just spend. People have

had enough! NO Gas Tax and No Payroll Tax. ODOT should be doing the basic services,

and hire the Engineers to build the bridges, road! Who watching the spending of all this

tax money, that we Oregonian send to Salem, but no accountability! People are leaving

Oregon and you won't have Taxes to spend, because there will not be businesses or tax payers to pay the tax! Try to work with the other side for a change. Do it for Oregon.
