Funding  
Measure, Appointment or LC 2  
Topic:

Dear Oregon Legislators,

Please vote NO on the proposed Transportation bill that would increase the already high tax on gasoline, increase vehicle registration fees, increase the state income tax, and more. My husband and I are already on a fixed Social Security income and these new taxes will cripple us. ODOT has mismanaged their funding for large projects and now want the taxpayers to give them more money instead of them staying within their budget. The DEI program within ODOT that costs taxpayers millions of dollars has not been defunded, as per Federal mandate, and yet the Governor persists in keeping it on the books. Our state is in crises and we look to YOU to put an end to these insane new taxes that will only further cause the decline of Oregon families. NO on the Transportation Tax!!

Sincerely,

Marianne O'Sheeran  
Medford, OR
