

Submitter:	D Shapiro
On Behalf Of:	in OPPOSITION
Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

After listening to the hearing, I am even more OPPOSED to LC2. The People of the state are overwhelmingly AGAINST giving ODOT more of our hard-earned money even though they have already mismanaged the money they were given. Figure out another way to pay for this, don't put it on the back of the citizens! It should not count that the agencies and the public officials think it is a great idea to raise taxes and have more money to spend or mispend as is what has been happening. The rest of us have to tighten our belts and adjust already with all of the high taxes in this once great state, the government entities need to do that same! Please do not pass this tax increase, you work for us, do your jobs and figure something out.
