Funding

Measure, Appointment or
Topic: LC 2

Please vote NO on proposed additional funding for ODOT.

Myself and my friends and family I have discussed this with are already struggling with the out of control taxes in OR, we surely can not handle more taxes that will increase the cost of everything we buy, all of the services we use and every where we need to travel to.

In addition, I am a business owner. I already have inflated costs to have employees here in OR I truly do not need my payroll taxes to increase Again!

ODOT has not been audited since 2017 and worse yet, they have not fully implemented the concerns from the last audit.

Just like every family in OR, ODOT needs to look at their operating budget and re-prioritize.

Spending millions of dollars to take a voter poll on how everyone feels about tolling the roads was an Absolute waste of tax dollars....the majority was always going to say No!

Please Stop over taxing Oregonians and driving businesses out of the state!
