Committee: Joint Interim Committee On Transportation
Funding
Measure, Appointment or LC 2
Topic:

Greetings.

I am Michael Angeli, a business owner of 23 years in the outdoor industry in Klamath Falls. A huge portion of my industry is dependent on interstate and within state travel for supplies and customer development. Our market is severely challenged and struggling with dramatically rising costs due to many factors. Our positions are tenuous at best. We (many) in my industry and community OPPOSE this invasive and punitive legislation being presented.
