Topic: LC 2

I am opposed to the governor's transportation plan. New taxes and fees are not the answer and a further burden to Oregon residents. Accountability for ODOT and its spending is greatly needed. Their Director needs to stop whining about lack of funds and start having someone, like the Legislature, oversee the agencies's spending and priorities. Oregon residents are getting tired of tax and spend policies and that is being demonstrated by people leaving the state. Please, do not pass the governor's plan. Thank you.
