Funding

Measure, Appointment or
Topic: LC 2

As a born and raised Oregonian, as well as an employee in the Transportation Industry, I urge you to vote "NO" on LC2, a new road tax. For too long we've been overtaxed in this state, always being promised improvements if we pass more taxes, only to see our hard-earned wages decrease while these tax dollars get diverted to projects or organizations they weren't intended for. Additionally, the Oregon Trucking Industry has been overpaying their fair share of highway taxes for years now without any attempt to make corrections or lessen the burden. It's too little too late, even if it means the unfortunate loss of jobs. The leaders of this state have wasted tax dollars for far too long without being held accountable, the buck stop here!
