Funding

Measure, Appointment or  
Topic: LC 2

Dear leaders of the state of Oregon. I am personally tired of paying so much of my hard earning to the taxes of the state. I have lived in Oregon for nearly 40 years and we continue to be hit with more and more taxes. I have no problem paying my share but when the funds go to things that do not help me and my community to progress and improve our living standards I don't like it. Please, please work on a better plan to take care of our roads. Come spend time in our communities of rural Oregon to see what it will cost us. I say no on the legislation being presented in this special session.
