Funding

Measure, Appointment or
Topic: LC 2

Transportation Funding Committee Members,

I am opposed to any increases in vehicle related costs such as gas, licensing, fees and taxes. I need more time to absorb the increases in my insurance! Are there no other sources to augment budget shortfalls like the "kicker" or rainy day funds? Are there no other programs that could be financially trimmed that would affect fewer people than those who need to drive their car as a means to support a family? NO on this one.

KD Brown
