Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

NO NEW TAXES on fuel, tires, licenses, permits, registrations, etc.! We pay some of the highest prices for fuel in the nation, you tax commercial industry for road use, you shock EV owners with extreme taxes and fees on their "green" vehicle, and yet the road from my house to downtown Dallas (Fairview and Washington Street) is a disaster to drive on. I do not think it will ever be fixed, and it is a state highway (Oregon 223)! Is there any point at which your first option is to look at the waste, fraud, abuse, and inefficiency within your ODOT organization BEFORE you burden the taxpayer with a few billion dollars in NEW taxes and fees? Please stop and look at ways to cut expenses and increase efficiency. Please!

Todd Brumfield
