Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

To whom it may concern:

I am opposed to any new gas tax increase!! We already pay much more than most of the rest of the country. AND when I look at the condition of a lot of our roads, it makes me wonder if the monies are really being used appropriately. I am also opposed to any new payroll tax increase. Until the government spends the taxes that it raises more wisely, it should not ask for more. Why is this legislature so intent on driving businesses and residents to other states? Why can't you folks figure out where you need to make cuts in your bloated bureaucracy and programs instead of this "tax and spend" agenda?
