I am OPPOSED TO THIS NEW GAS TAX. There is no "accountability" required of ODOT. Giving it to the Governor's office is also not the answer.

ODOT has squandered millions, but wants more. NO

There must be another way... ODOT has money in "other places"... If some areas need a reduction in staff, so be it. ODOT should cut some Admin...rather than lay off "snow plow drivers" or highway maintenance. This is like school districts threatening to cut band, unless revenue is raised, while carrying top heavy admin...

ODOT needs accountability for past waste before more money is allocated... Road tax, gas tax increase is unacceptable.
