Funding

Measure, Appointment or  
Topic: LC 2

I would like to voice my opinion on the proposed transportation tax in that I respectfully oppose the raising of any additional taxes and or fees. My husband and I are retired and our income is limited and we are already taxed way beyond what we can afford. Our mortgage payment has gone up an additional \$400 a month in new taxes which we did not anticipate when we bought our home. If ODOT needs more money then they should cut staff and budget for necessities just like the rest of us. Do not pass the transportation tax. We cannot afford it.
