We can hardly afford to feed our family and you want to raise our taxes? I commute to work 45 minutes each way and can hardly afford gas. I would be better taken care of if I quit my job because then I would qualify for all your free services. Nobody would blame me since I have cancer. But because I choose to set a good example for my children and earn what we have, I find myself struggling to make ends meet. Your system should not penalize people like us who are trying everyday to put food on the table while rewarding the lazy. No new taxes!
