Measure, Appointment or Topic:	LC 2

I would like to see an official audit of the State of Oregon's funds.

Where is the marijuana tax money? Definitely not spent on the schools.

Increased DMV fees and fuel tax will only hurt working Oregonians and further support your wasteful spending habits.

Before we the people can agree to more taxation why don't you stop wasting our hard earned money on your personal and political agenda and learn to budget wisely like we have to after being taxed to death by the state.

The cost of living in Oregon is too high already and all the struggling families will suffer even more if you pass this bill
