Please vote no on the new road tax. Oregonians are already struggling to pay their day to day expenses, increasing the gas tax or vehicle registration fees puts an undo burden on everyday Oregonians, particularly when smarter use of existing funding is sufficient to repair and maintain the state's infrastructure. Putting in the time to review the ODOT budget line by line and restructuring priorities to serve Oregonians isn't the easy way, but it is the right way to do it....please choose the right way and vote no on the new road tax. Thank you.
