Funding

Measure, Appointment or
Topic: LC 2

I am against the special session the Governor has called for Labor Day weekend. It is an abuse of power, tax payers dollars, and the staff who have to work this weekend. I bring to the attention of the Governor and Legislators that the majority of the nation's voters voted for less government. The residents of Oregon pay your salaries. A true Oregonian does not want more taxes. The Oregon government has chosen to put illegals before the needs of an Oregonian. The Oregon government could choose to cut diversity, equity and inclusion (DEI) to redirect the funds to our transportation department which is more relevant to Oregonians than DEI. DEI is already outdated due to we all are created equal with different talents. I urge you to vote no on this Act that increases taxes to the citizens of Oregon. Thank you. Judy R. Dow
