Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

As a disabled senior citizen, living on Social Security I implore you to reconsider the tax increases that you are proposing. Gas prices are too high, especially compared to the rest of the country. Raising the registration fees would impact my already stretched budget. I have already cut my expenses to the bare minimum and can't make ends meet. I am very concerned about my quality of living and do not want to become a burden on my children.

PLEASE DO NOT PASS THIS BILL.

Thank you for your consideration on this matter.
