I absolutely oppose to the purposed "Road Tax"!

I am sick and tired of "our government," we the people no longer have a voice when it comes to State of Oregon issues.

We as a family struggle to make ends meet and with constant tax increases a will no longer vote for tax increases particularly regarding roads, transportation, and gas increases until improvements are made with money already approved and distributed for improvements but dispersed to other causes.

I am deeply disappointed with our State Government with constant tax increases without results.

STOP THE WASTE and handle the people's money efficiently!
