Committee: Joint Interim Committee On Transportation  
Funding

Measure, Appointment or  
Topic: LC 2

I am in support of LC2 and will willingly pay the additional fees that this bill will incur on me under one condition: That the clean up of the endless camping/garbage that continually plagues I-405 and I-5 be finally dealt with in this budget. The situation is neither safe, nor humane.

It has gone on for years now and is both an embarrassment and an assault on the senses.

Though I care about pot holes and highway signage and snow plows, it's truly back to absolute basics - a clean, unobstructed highway. So often when I get off at my I- 405 exit, I just want to cry.
