Funding

Measure, Appointment or LC 2  
Topic:

Please be advised that I oppose LC2. I believe that that money for ODOT can be found within its current budget. Constantly raising taxes is not the way to run a government. Proper oversight of funds within the budget, spent wisely and with clear knowledge of the use it is designed for, is the properly governed management of funds. Throwing more cash at an internal problem does not solve the problem but exacerbates it.
