Funding

Measure, Appointment or
Topic: LC 2

I would like to voice my opposition to this bill.

Oregonians do not need to be taxed more, we're already bleeding people and businesses dry, as well as them leaving the state. Fix your wasteful spending, drop unneeded programs like DEI/ESG. Drop bloated administration, and actually run ODOT, like a real business. The package from 2017 didnt even address the things it was going to address, what makes anyone think this time is different?
